

Exhibit C - U.S. PATENT NO. 8,392,542 – DATA BACKUP AND TRANSFER SYSTEM, METHOD AND COMPUTER PROGRAM PRODUCT

Dropbox's Business packages contain the same basic components relevant to claims 1, 2, and 3 of the '542 Patent. See <<https://help.dropbox.com/learn/business-guide-get-started-member>> for more information on getting started with Dropbox Business.

Claim Chart Related to Dropbox.com & Justservice.net's U.S. Patent No. 8,392,542	
Claim No. 1	Infringing Product
A data storage system comprising: a virtual server on a network managing a plurality of user accounts, each user account including one or more files;	<p>Dropbox is a data storage system that is capable of managing data files of multiple accounts and is accessible on a user computer via www.dropbox.com. See <i>Document Storage</i>, DROPBOX, https://www.dropbox.com/features/cloud-storage/document-storage ("Dropbox is an online software solution that manages electronic documents for both individuals and teams."); see <i>How can I access Dropbox on my Windows, Mac, or Linux Computer?</i>, DROPBOX: CLOUD STORAGE, https://www.dropbox.com/features/cloud-storage ("[y]ou can access Dropbox cloud services on Windows, Mac, or Linux operating systems ... through the web on dropbox.com [which] require[s] your device to be connected to the internet to upload and access your files.").</p> <div><div><div></div><div></div><div></div></div><div></div><div></div><div></div></div> <div><div></div><div></div><div></div></div> <p>Easily find what you need</p> <p>Create a central workspace so everyone can find what they need quickly. Team folders are a simple way to give your entire team access to things like employee handbooks, departmental goals, and offsite photos.</p> <p>Plurality of user accounts</p>
each user account having a primary account user and a plurality of subaccounts, each of the subaccounts having file rights controlled access to subaccount files stored on the virtual server	"Dropbox is an online software solution that manages electronic documents for both individuals and teams." See <i>Document Storage</i> , DROPBOX, https://www.dropbox.com/features/cloud-storage/document-storage . Upon information and belief, Dropbox Business accounts have a primary account and subaccounts. Dropbox Business manages multiple accounts and subaccounts in the form of team administrators and team members. See <i>Invite people to your Dropbox Business team</i> , DROPBOX, https://help.dropbox.com/teams-admins/admin/invite-team . Dropbox has functions that allow the primary account user to control the subaccounts' file rights. See <i>How can I customize security in Dropbox Business?</i> , DROPBOX, https://help.dropbox.com/teams-admins/admin/customize-security ; <i>Change admin rights for your Dropbox Business team</i> , DROPBOX,

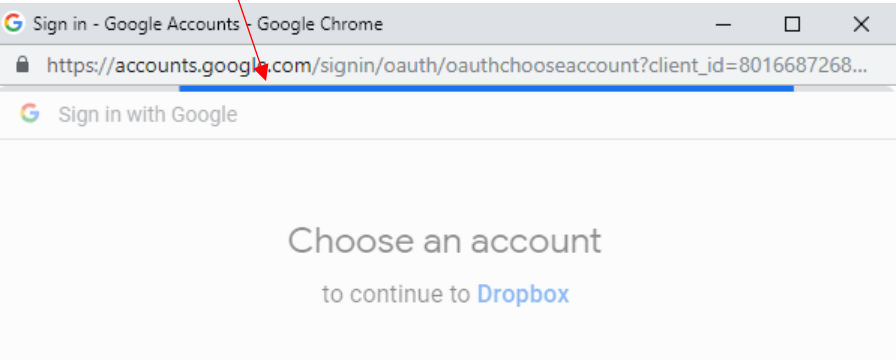

and each of the subaccounts having file rights controlled access to shared account files stored on the virtual server;

<https://help.dropbox.com/teams-admins/admin/change-admin-rights#levels>; *Manage your Dropbox sharing permissions*, DROPBOX, <https://help.dropbox.com/files-folders/share/set-folder-permissions>.

the virtual server adapted to verify user access information for a particular user account;

Dropbox Business verifies each member before allowing access to a business team account. *See Join a Dropbox Business team*, DROPBOX, <https://www.dropbox.com/help/business/join-business-team>.

	<p>On www.dropbox.com, once a user enters the account email and password and selects to sign in, a blue bar runs across the top of the page while Dropbox verifies the account.</p> 
the virtual server transferring over the network information relating to files stored on the virtual server in the particular user account to a verified user on a user computer;	Dropbox transfers over the internet for display on a user's computer screen information relating to files stored on Dropbox's virtual server.

server

the virtual server further adapted to transfer files associated with the particular user account to and from the user computer.

Dropbox transfers user files to and from Dropbox and the user's computer when the user selects either the "Upload" or "Download" function, as shown below.

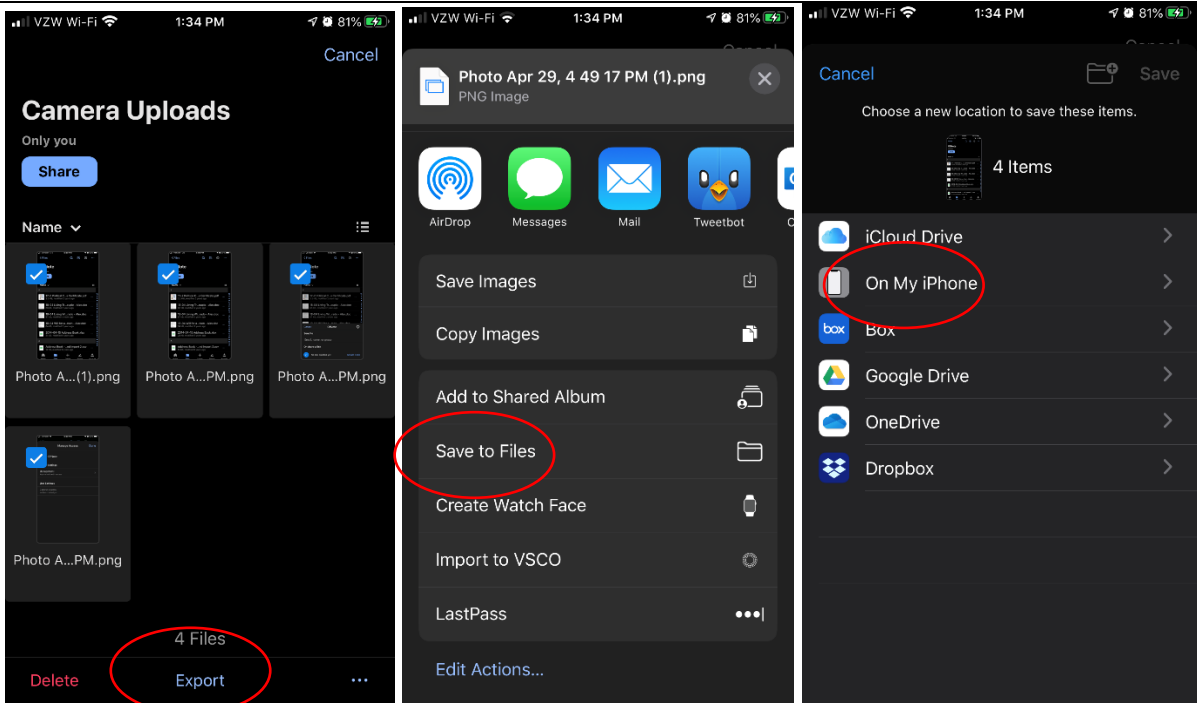

On dropbox.com

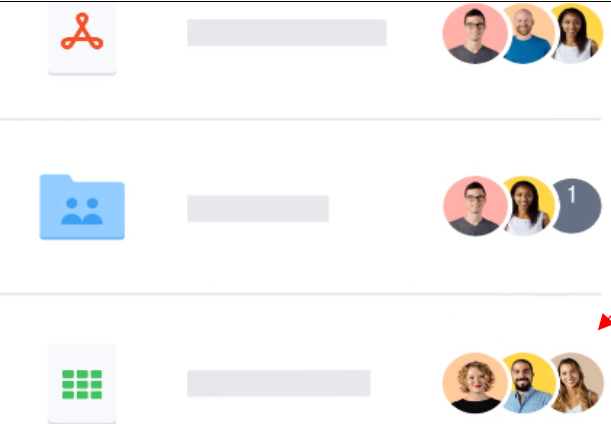

1. [Sign In to dropbox.com.](#)
2. Click **Upload**.
3. Choose **Files** or **Folder**.
 - If you choose **Files**, select as many files as you like and click **Open**.
 - If you choose **Folder**, select a folder and click **Upload**.

Download directs Dropbox to transfer the file to the user's computer.

See also *Add Files to Your Dropbox*, DROPBOX, <https://help.dropbox.com/files-folders/share/add-files>; *How to download an entire folder from Dropbox*, DROPBOX, <https://help.dropbox.com/installs-integrations/sync-uploads/download-entire-folders>.

	
Claim No. 2	Infringing Product
The data storage system of claim 1 wherein the virtual server allows a plurality of sub-accounts to be associated with one or more of the user accounts.	"Dropbox is an online software solution that manages electronic documents for both individuals and teams." <i>See Document Storage</i> , DROPBOX, https://www.dropbox.com/features/cloud-storage/document-storage . Dropbox business manages multiple accounts and subaccounts in the form of team administrators and team members. <i>See Invite people to your Dropbox Business team</i> , DROPBOX, https://help.dropbox.com/teams-
